Introduction

Target Vocabulary 2 follows on from Target Vocabulary 1 and is intended for pre-intermediate/intermediate students and presents and practises approximately 1,500 key words. To facilitate learning, these have been arranged into areas of vocabulary. Altogether there are six main sections and each section has between 10-15 areas of vocabulary, closely linked to the main theme.

At the end of Section Three and Section Six there are mini tests called Check 1 and Check 2. These checks are for reinforcement and test the items in Sections 1–3 and 4–6 in a varied and interesting way.

Finally, to aid self-study, there is an answer key at the back of the book, plus a list of the key words used and the section(s) in which they appear.

In writing this book I have consulted a number of different dictionaries. The following can be warmly recommended:

Longman Dictionary of Contemporary English – new edition (Longman)
Collins Cobuild Essential English Dictionary (Collins)
Oxford Advanced Learners Dictionary (Oxford University Press)
The Penguin Wordmaster Dictionary, Manser and Turton (Penguin)
BBC English Dictionary (BBC English/HarperCollins)

2 In the following dialogue, a police officer is questioning an eyewitness. After you have read it, look at the drawings and pick out the person you think the witness is describing.

Police officer How old do you think he was?

Witness Well, he was quite young. In his late twenties, I'd

say.

Police officer And was he tall?

Witness Yes, quite tall; taller than me, anyway. I'm 160 cm

so he must have been about 175 to 180.

Police officer What about his build?

Witness Well, he was fairly slim. Not a bit muscular. Maybe

even a bit skinny.

Police officer And what did he look like?

Witness Not very handsome. He had dark hair, but I can't

really remember if it was long or short. But it was swept back. He didn't have a fringe or anything.

Police officer And did you notice what he was wearing?

Witness Oh yes! He was wearing jeans and this horrible

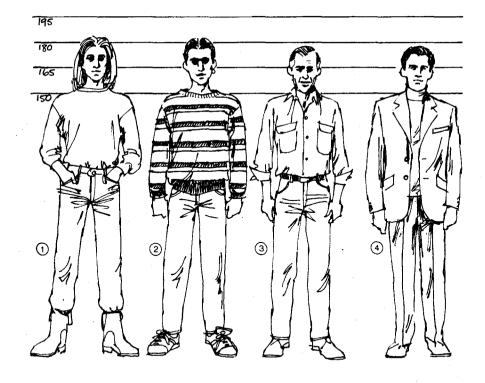

striped sweater. Oh, and he had white trainers too.

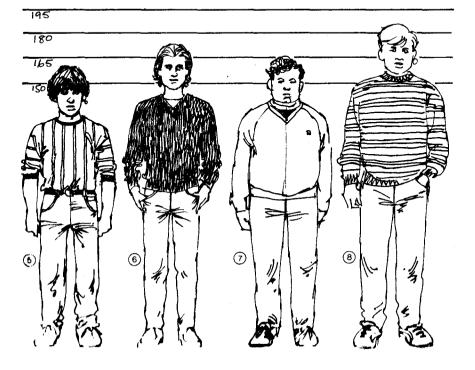

Police officer Anything else?

Witness No, I don't think so. Oh, wait! He had an earring.

In his left ear, I think.

Police officer Right, thank you. You've been very helpful.

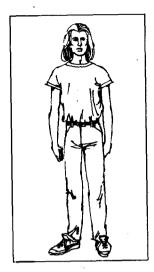

3 Now make up and act out your own dialogues, using the pictures on the opposite page. Whoever takes the part of the policeman must ask the questions and pick out the person he or she thinks the witness is describing. When you have done it once, change parts and do it again.

Here are the questions the police officer asks:

- How old was (s)he?
- Was (s)he tall/short?
- What about his/her build?
- What did (s)he look like?
- What was (s)he wearing?
- Anything else you can remember?

The world of music: A pop group

Read the following text and study the drawing on the next page. When you have finished, write the word printed in **bold** type in the text next to the correct numbers 1–16.

A pop group can have many forms, but a traditional one has a single lead singer, and sometimes a backing group. There is nearly always a drummer sitting behind his or her drum kit and two or three guitarists playing electric guitars. The person playing lead guitar is usually a very good guitarist and has all the solos. The person playing bass guitar, which is the biggest of the electric guitars, provides a strong, often pounding bass rhythm. Sometimes, especially for a slower, quieter ballad, one of them might play an acoustic guitar. The difference is that electric guitars always have to be plugged into an amplifier. The singer sings into a microphone and behind him or her are usually several enormous loudspeakers. Nowadays there is nearly always a keyboard player. He or she plays a range of synthesizers and possibly an electric piano. Finally, some groups have a saxophone player and might even have one or two dancers.
